

ATTENTION THEFT

CAR - THEFT **Underground Car Park** **Breitenbender Weg 109-111 / 50354 Hürth (D)**

In the period of **October 24th, 2021 to November 13th, 2021** my classic car was stolen from an underground car park.

Here some „Key Facts“ for prompt identification – For tactical (investigation) reasons, only a few details:

- **Mercedes Benz 190 SL Cabriolet Classic Car** from 1957/1958 – **First official registration 01. July 1958**
- **Red Colour** and **Black Leather Seats** and **Black Soft Top**
- **Official Registration Car Number / Plate: BM-LJ-41H** („H“ stands for classic car in Germany)
- **Car License** (not owner certificate!) was in glove box, because for a visit to car repair shop, with the old surname **Celiköz**.
- **Car Identification Number:** The last 5 numbers are**01565**
- **Characteristic 1:** On the black soft top, in the centre at the top if the soft top is closed, a 15 to 20cm seam sewn with black yarn/thread will be seen.
- **Characteristic 2: Engine starts only with car key**, not car key and additional "Start" button
- **Characteristic 3:** Car Tires are very old (check tires - Date of Production) and you will see **175 R13 Radial**
- **Characteristic 4:** The steering wheel has a little "play" of about two to three fingers (within the permissible range) until the steering (tires) engages.
- **Characteristic 5:** The car is a version made and delivered for Germany, but it was in the USA (due to professional circumstances) from about 1980 to 1989 and therefore the speedometer was re-adjusted and changed from VDO Germany to MPH. When the car came back to Germany in 1989, I left it as it was. Only a red mark was made at 30 mph on the speedometer display so that it corresponds to approx. 50 km/h

For investigative tactical reasons, additional details will not be named. Call me or the police before you want to buy a classic Mercedes Benz 190SL!
